Nozer loves to challenge his readers with his thoughts, and inspire them with his words. He resolutely believes that his book, “**Why Entrepreneurs Really Fail,**” is not just a manuscript, but a revelation about entrepreneurship.

He is not hesitant to admit that he has made several mistakes and has even failed many times...but has *never given up!* “There is always a way,” he says, “and one must find it. Just because you cannot find a way, it does not mean it does not exist.”

This book has been written for those who want to challenge the way it has always been done. It is written for those who want to rewrite the rules of the game and are not just content to follow...

This book is written for you!
